

Payroll Services

Payroll is a high stress, high risk area for many of our clients. Both employees and employers expect 100% accuracy on every pay run. Filing of information and payments to Inland Revenue Department must be accurate and on time. Payroll is often the largest expense item in a client's business. It is therefore important that this area is managed closely and that the employer is not calculating leave rates incorrectly.

We provide experienced personnel to oversee every payroll. Each payroll is processed online using IMS software.

We presently process a large number of payrolls for clients of all types and sizes. Every employer has their own special needs when it comes to their employees.

With the constant payroll legislation and reporting changes, this is a specialised area, and we can offer an employer payroll staff who have the expertise and knowledge to prepare their payrolls accurately. At McCulloch and Partners we invest time in staff training to ensure that our payroll staff keep abreast of all legislative developments, which saves you as an employer, this time.

McCulloch and Partners offer bank interface integration which allows the direct transfer of employee payments from our clients' bank accounts. We also take care of all IRD reporting requirements and payments on your behalf.

We are happy to provide a free, no obligation quote for McCulloch and Partners to prepare and look after all your payroll needs. This will free you up, as an employer, to spend more time on your day to day business requirements.

For further details contact our Payroll Manager by phone or www.mcp.co.nz.
